

Tulsa will become a Feeding Station

Prophecy from Jeanne Wilkerson

A prophecy concerning America, given by Sister Jeanne Wilkerson in 1976. Below is the excerpt found on pp. 261-266 of her book, "Contact with God."

Be encouraged! The Church still has a job to do!

In the fall of 1976, The Spirit of the Lord came upon me. For thirty minutes the Lord poured out a prophetic word concerning the fifty states. When the two major political parties nominate a presidential candidate at their conventions, they take a roll call of states to determine which candidate each state will support.

Likewise, God was having His own roll call of states to see if the people in each state would cast their vote for Jesus. God would bless the states that spiritually answered in the affirmative for Jesus.

The United States would have a period of time that God would give her to accomplish His purpose on the earth. Even though she had departed from God's precepts in many ways, America still retained the knowledge of God in a great mass of her people, so He was still going to bless this country. His people would awaken to realize the power they had through intercession to God.

At her birth, America originated from thirteen colonies. Thirteen is the number of rebellion (Gen 14:4), but it is also the number of divine atonement. It is not coincidental that America is now comprised of fifty states. Fifty is the number of Pentecost (Lev. 23:15,16). America did not have fifty states until the end times. When she had fifty states, America would send missionaries to take the knowledge of the Holy Spirit throughout the world in the end times. Many natural characteristics of the individual states would reflect their spiritual condition.

It was in the divine plan that America's symbol for her insignia is the eagle, for she has many characteristics of the eagle. The eagle soars to great heights, and when the eagle grows old, it goes into a high place in the mountain. It then begins to beat its old beak away and loses its old feathers. Though the eyes of the eagle have grown dim, suddenly the eagle's sight is renewed. In the same manner, America would go through a season where spiritually she would grow old and appear to be on the brink of death. But God would intervene and revive America's spiritual vitality, like the eagle's youth is renewed. America will soar spiritually again.

Louisiana and California were two states where Satan sought to seat himself in great strongholds. It was not by happenstance that the name of the state of California begins with the letter "C." It is the "cult" capital of the United States. It is an extensive enclave for the widespread accepted practice of homosexuality. But God in His grace was going to move in California. The city of San Francisco will have a mighty outpouring of the Holy Spirit - one more time- and it will be her last call.

God said by the power of the Holy Spirit, He would pull many people out of the fire of homosexuality - which is a fire lit by Satan. "Many of My own sons and daughter are participants in this unholy fire. The Holy Spirit will bring believers out of the fire. Having been delivered, they in turn will go in and bring others out of that bondage. "

In the beginning of time God knew where the borders of the states would be. He hid great natural resources within the boundaries of the states that would vote to honor Him. God mentioned among others, Arkansas, Oklahoma, and Texas as states that would vote more in the affirmative for Jesus Christ than in the negative. Oil and gas are not the greatest resources that were invested in Oklahoma and Texas. The nations of the world would seek to tap into the spiritual resources of Oklahoma and Texas in the last days. God has hidden away in these states great natural resources to generate wealth for His people in the last days.

The last great revival of the last days will be financed by much of the wealth from Oklahoma and Texas. The city of Tulsa in the last days would become a feeder station for the United States. People would come, be fed, and go back to their ordained places on the earth with the Gospel message. Tulsa would be a prominent city during the millennial reign of Christ because of the great prayer that had arisen through the years from intercessors that have lived in that city."
